**MEREHEAD**

# AltcoinsHub

Cross-platform mobile application crypto-wallet

## Secure Payments

Leverages smart contracts to provide digital escrow capability to businesses and their customers to mitigate risk of non-performance and/or non-payment.

## Flexibility

Flexible system to buy and sell cryptocurrency

## P2P Exchange

Ability to buy crypto from people.

MEREHEAD.COM

The image shows a desktop browser window and a smartphone displaying the AltcoinsHub platform. The desktop view features a dark blue header with the logo, language selection (En), country selection, sign up, and log in buttons. Below the header is a large banner with the text "Buy and sell stablecoins anywhere with AltCoinsHUB" and a "Create offer" button. A yellow section below the banner contains the text "Crypto P2P Exchange AltCoinsHUB" and a "Exchange now" button. At the bottom of this section are currency selection buttons for BTC, TRX, ETH, USDT, DAI, DAR, USDC, and PAX. The smartphone screen shows a mobile version of the platform with a similar layout. It includes a top bar with the logo, a "Buy USDT at 9300 USD" button, and a "Sell USDT at 9300 USD" button. Below these are two sections of trade offers for UAH/USDT. The first section shows a listing for 26.46 UAH/USDT with a maximum of 2.000000000 USDT, listed by champlin.lydia, with an "offline" status. The second section shows a listing for 26.46 UAH/USDT with a maximum of 3.000000000 USDT, also listed by champlin.lydia, with an "offline" status. Both sections include "Buy" and "Sell" buttons. The overall design is modern and user-friendly, emphasizing ease of use and secure transactions.

# ICO Bestyncoin

ICO platform for the home services market with own cryptocurrency

## Financial transactions

Financial transactions in the 8YB tokens made like on Amazon.

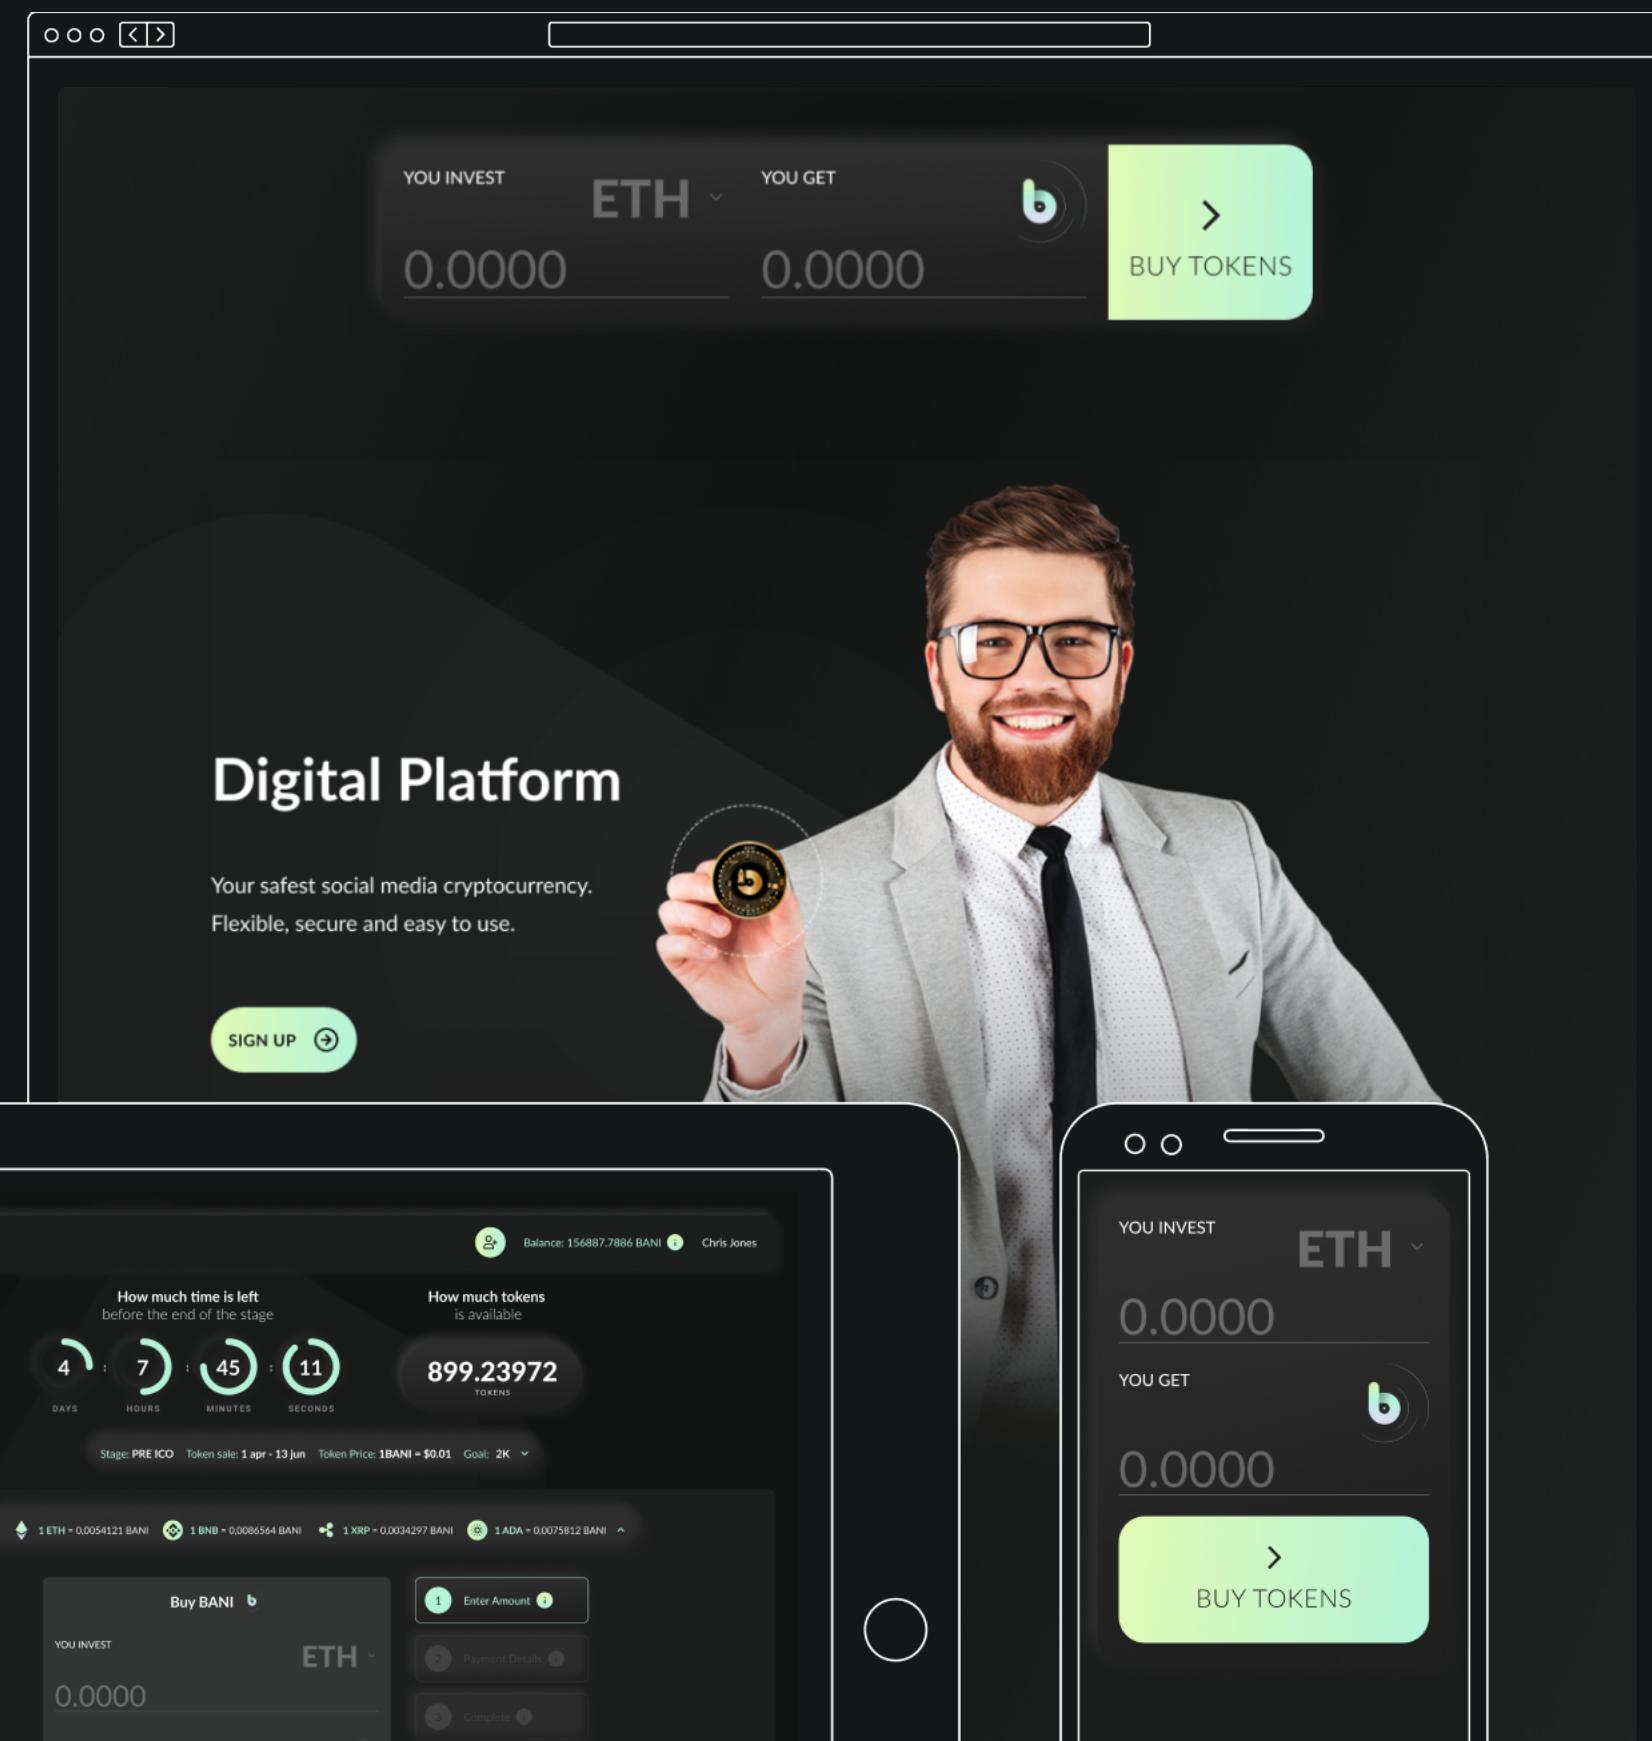

## Bestyn App

The Bestyn App uses the cryptographic token 8YB to conduct financial transactions within the system.

## Token

Cryptographic token is 8YB.

MEREHEAD.COM

# Moonbase

ICO platform for the home services market with own cryptocurrency

## Financial transactions

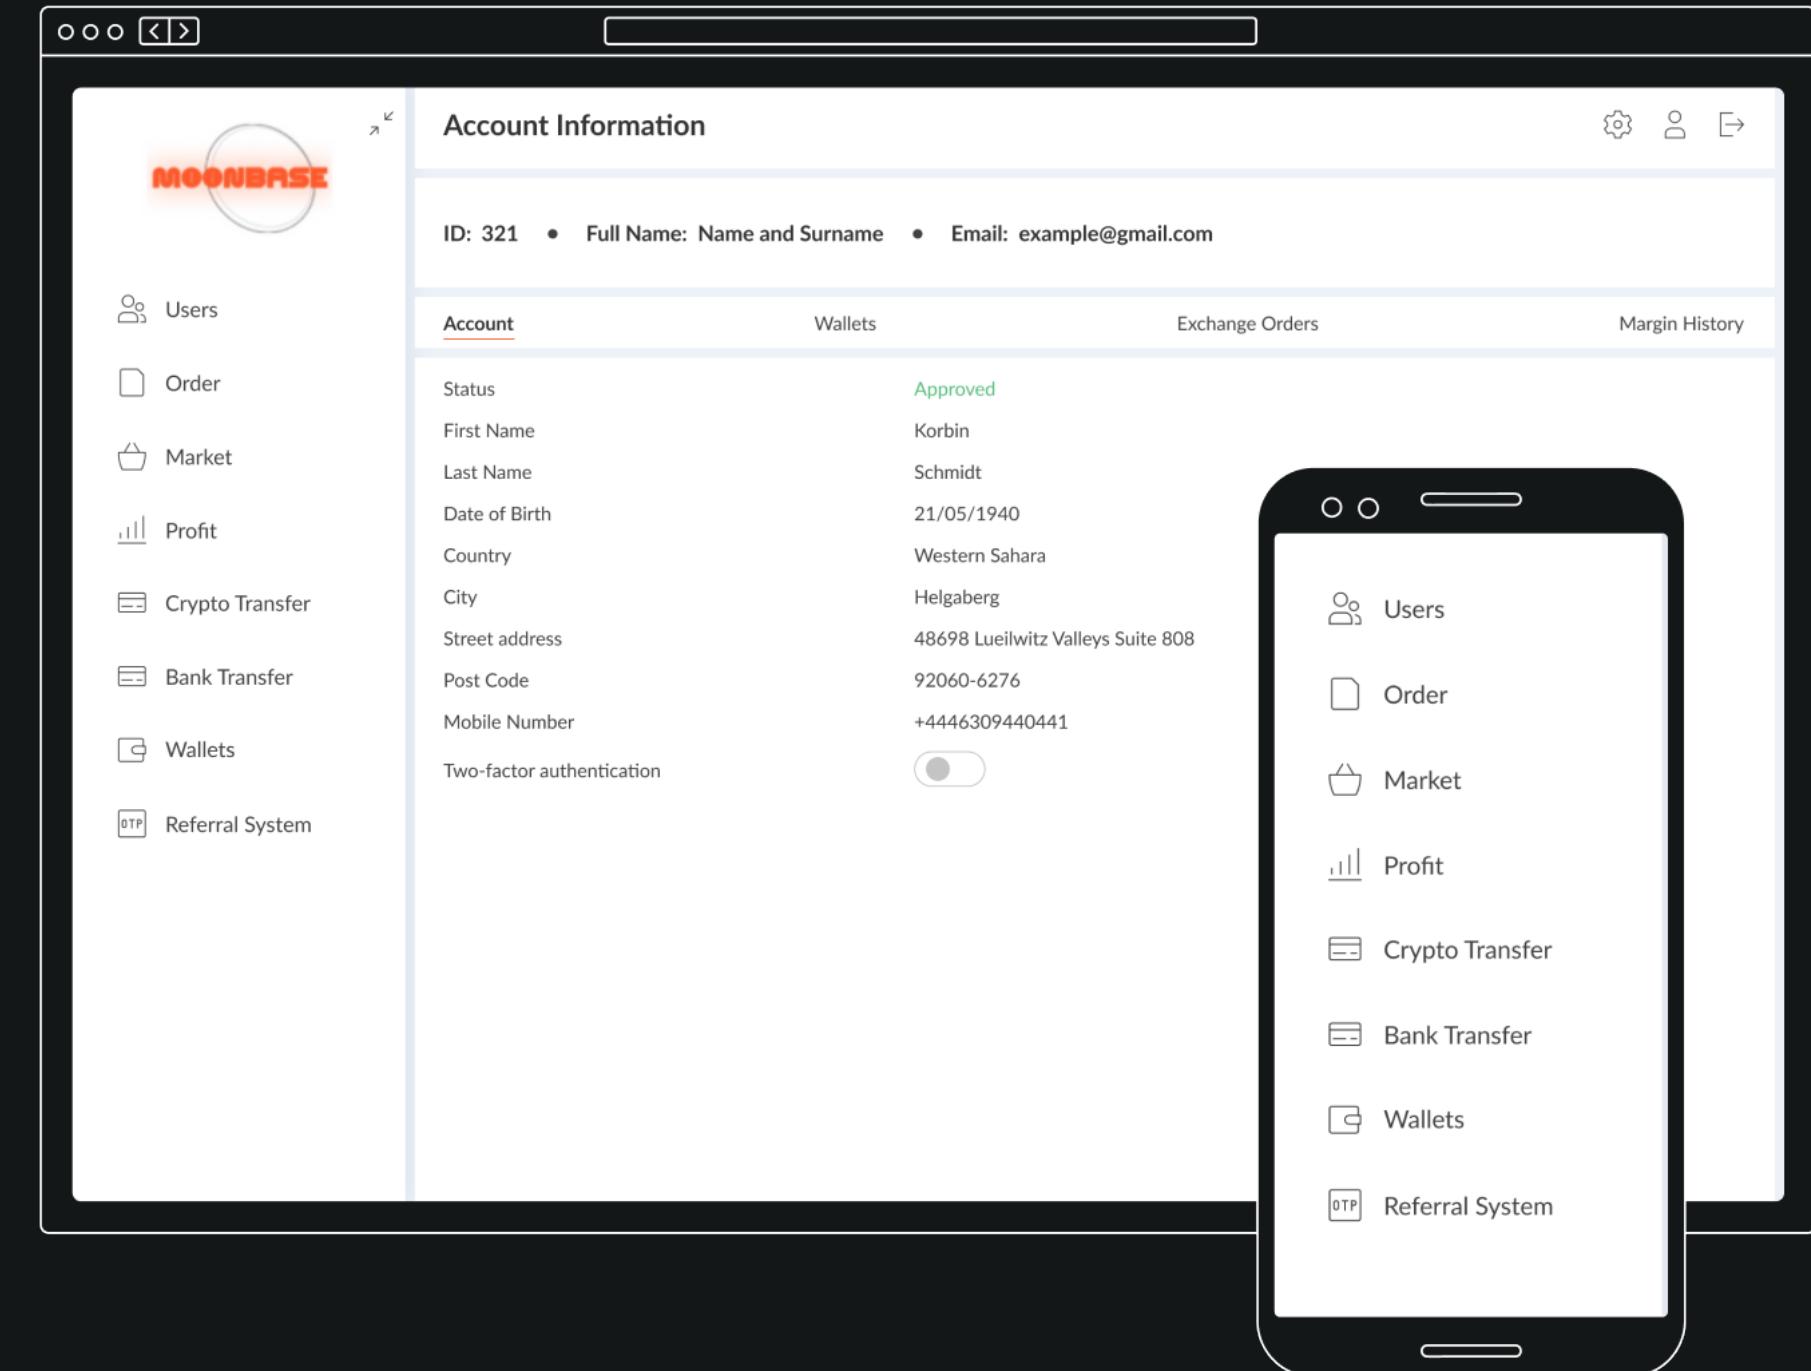

Financial transactions in the 8YB tokens made like on Amazon.

## Moonbase

The Moonbase uses the cryptographic token 8YB to conduct financial transactions within the system.

## Token

Cryptographic token is 8YB.

Support for multilingual localization and for tokens of innovative projects, also the ability to add your currency to our exchange.

### Quick deposit and withdrawal of assets

All replenishment occurs quickly and without commission, replenishes the account in a convenient way or using some popular cryptocurrencies.

A screenshot of the AlphaXchange website's trading interface. At the top, there's a navigation bar with links for 'ALPHA XCHANGE', 'Buy Crypto', 'How It Works', 'About Us', and 'Referral Program'. On the right, there are buttons for 'Login', 'Sign up', and language selection ('EN'). Below the navigation, there's a large green and blue background graphic with abstract patterns. In the center, a modal window is open for a trade. The modal has two sections: 'SELL' (with a value of 0 and a dropdown menu for BTC) and 'BUY' (with a value of 0 and a dropdown menu showing options: BTC, USD, EUR, ETH, and BCH, with 'BTC' checked). A green 'Exchange' button is at the bottom of the modal. To the right of the modal, there's placeholder text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit.' and 'Phasellus quis magna ut quam sagittis malesuada. Nam vel lacinia ex. Morbi in fermentum ex, quis sodales risus. In eu pulvinar urna. Nulla vehicula nisi sed ex ornare cursus. In dictum pharetra dui sit amet rhoncus. Mauris eu ultrices felis. Ut tincidunt diam a ante malesuada imperdiet eu ultrices dolor.' Below this text is a small 'Read more' link. Further down, there's a section titled 'About us' with a similar block of placeholder text and a 'Read more' link. To the right of this text is a landscape photograph of a savanna under a cloudy sky, with a watermark 'Elina Litovkina' and a yellow double arrow icon.

A screenshot of the AlphaXchange website's wallet management interface, displayed on a mobile phone screen. The top navigation bar is identical to the desktop version. The main area shows a summary of available assets: USDT (10000.00), ETH (13.24848683), LTC (254.440745), and BTC (0.00060175). On the left, a sidebar menu includes 'Dashboard', 'Wallets' (selected), 'USDT', 'LTC', 'BTC', 'Transaction history', 'Security', 'Profile', and 'Referral system'. The 'Wallets' section shows a 'BTC Wallet' with an estimated available balance of 0.00060175 BTC. Below this is a 'Transaction history' table with several entries:

DATE AND TIME	PAIR	RATE	QUANTITY	AMOUNT
2020-09-21 20:09:50	BTC/USD	10497.39	1	10497.39
2020-09-21 20:09:50	BTC/USD	10497.39	0.0952952746	1000.13531645
2020-09-21 20:09:50	BTC/USD	11876.3	1	11876.3
2020-09-21 20:09:50	EUR/BTC	0.0001169544	50	0.0001169544

# Eluter

## Cryptocurrency trading platform

### Security

Two levels of authentication, Google Authenticator, email, double protection against DDoS attacks, and monitoring by the security service.

### Simple yet efficient

The core allows users to make up to 1 million transactions per hour.

### Efficient design

Bright and green colours allow highlighting important elements for the customers.

The image displays the Eluter website interface. The top section shows the homepage with a teal header featuring the Eluter logo, navigation links (Products, Services, Resources, Company, Contact, Login, Sign Up, EN), and a large call-to-action button: "Withdraw your money in any currency, anywhere." Below this, there's a sub-section titled "Buy & Sell Cryptocurrency. Withdraw Fiat." with a "Cryptocurrency Calculator" tool. The bottom section shows the user's account dashboard for David, with a teal header showing "Hi David!" and "My Dashboard". The dashboard includes an "Account Summary" showing a total value of \$268.568,05 and a "My Wallets" section with a pie chart showing BTC holdings at 258.589,05. Navigation tabs for "Savings" and "Exchange" are also visible.

# FLB

## Centralized Cryptocurrency exchange platform

### Security

Two levels of authentication, Google Authenticator, email, double protection against DDoS attacks, and monitoring by the security service.

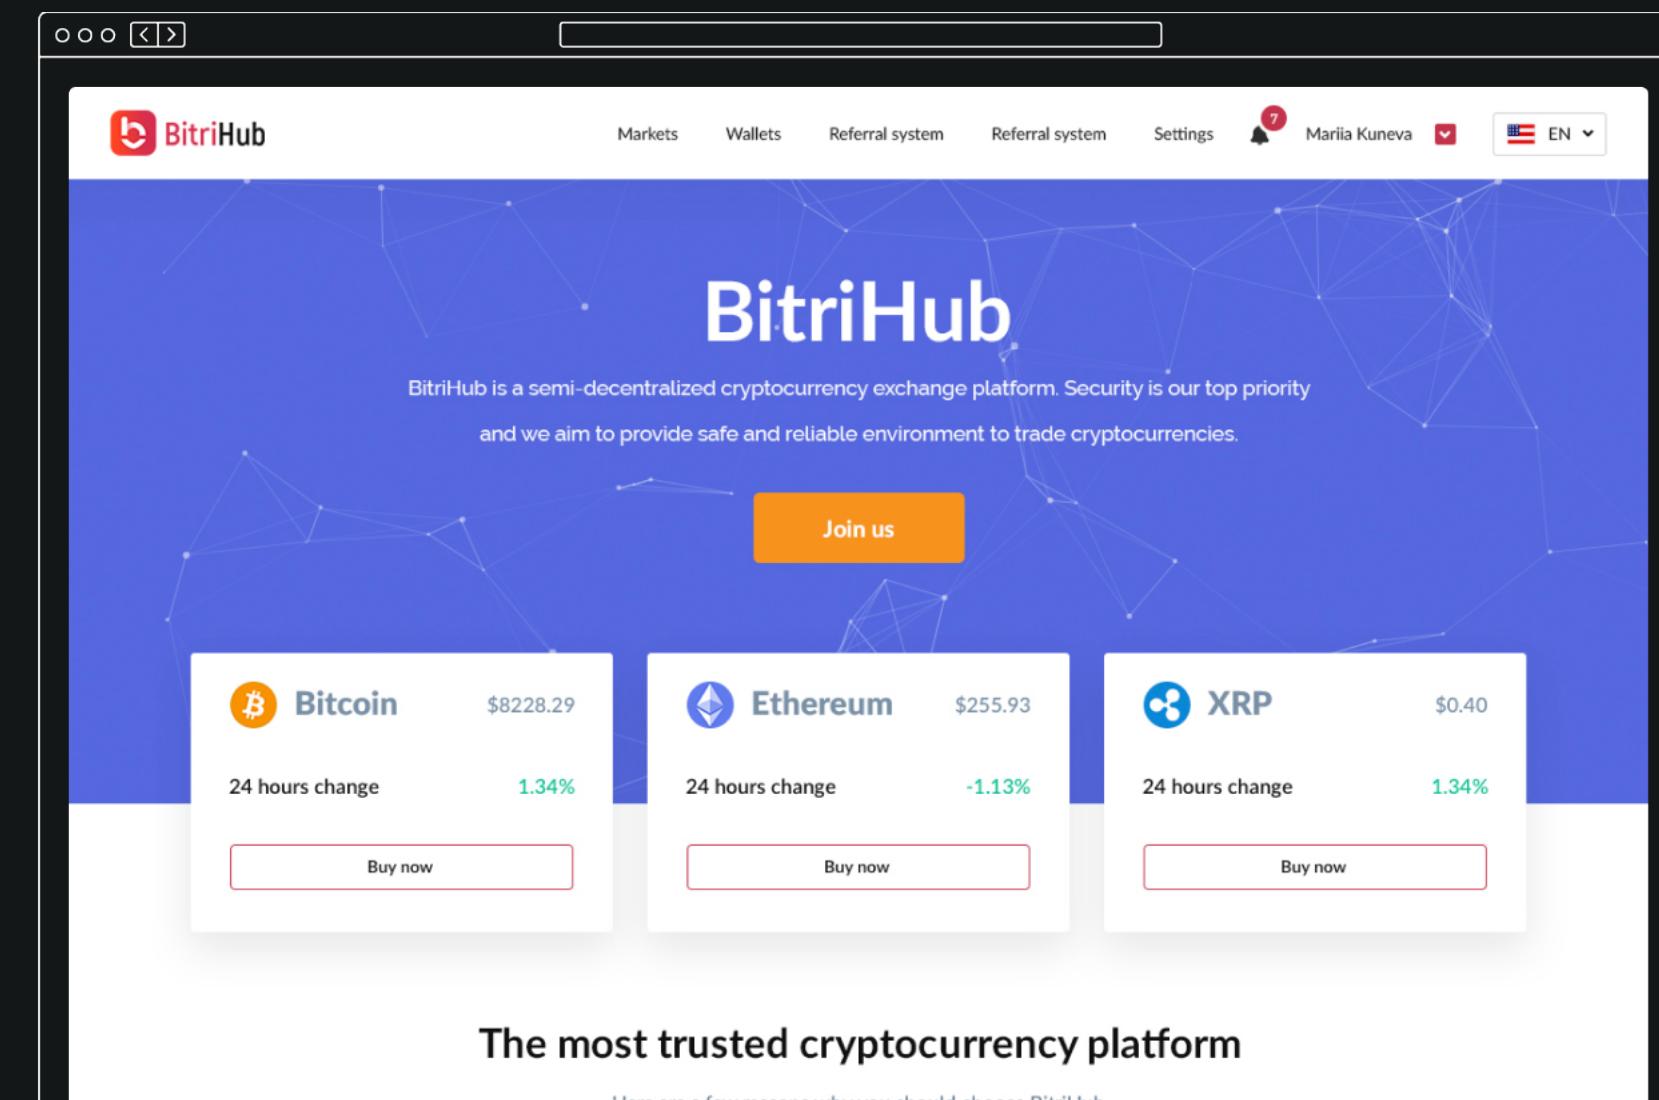

### Quick deposit and withdrawal of assets

All replenishment occurs quickly and without commission, replenishes the account in a convenient way or using some popular cryptocurrencies.

### Liquidity

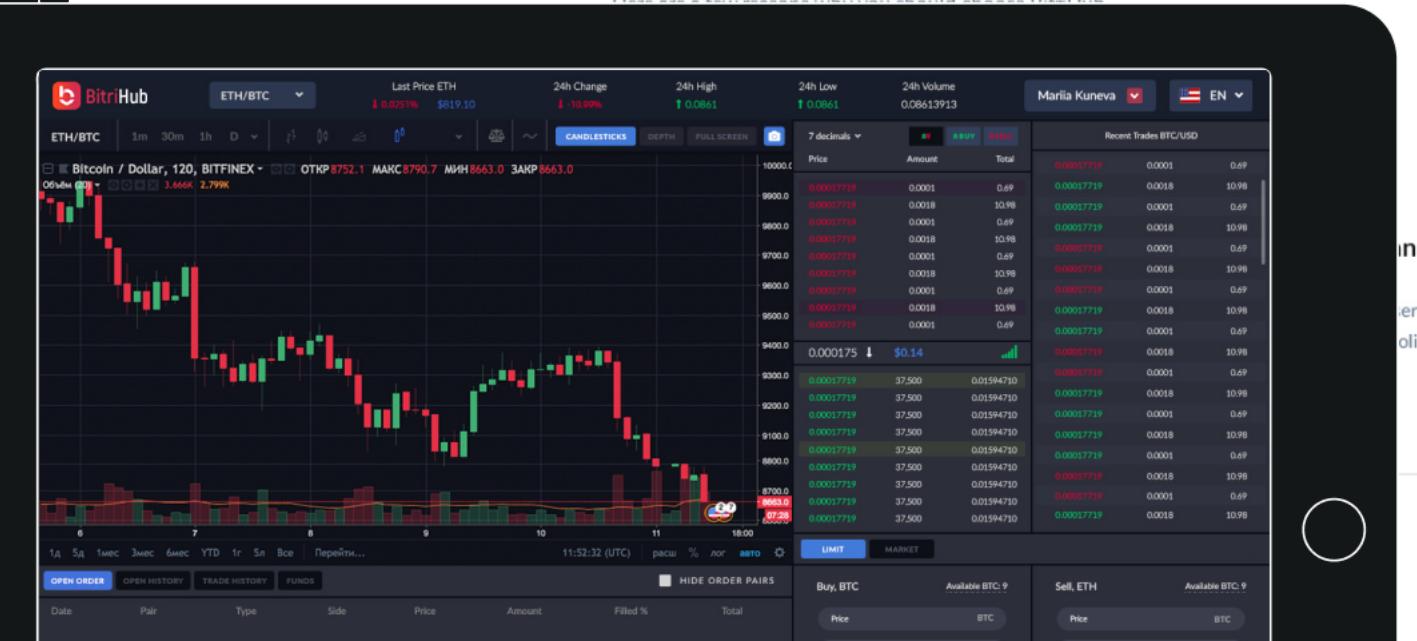

Support for multilingual localization and for tokens of innovative projects, also the ability to add your currency to our exchange.

MEREHEAD.COM

The screenshot shows the BitriHub homepage. At the top, there's a navigation bar with links for Markets, Wallets, Referral system, Settings, and a user profile for 'Maria Kuneva'. A yellow 'Join us' button is prominently displayed in the center. Below it, three cards show real-time price information for Bitcoin (\$8228.29, +1.34%), Ethereum (\$255.93, -1.13%), and XRP (\$0.40, +1.34%). Each card has a 'Buy now' button at the bottom.

The most trusted cryptocurrency platform

# Cardax

Decentralized Cryptocurrency exchange platform

## Liquidity

Allows liquidity providers and traders to participate in a financial marketplace that is open and accessible to all.

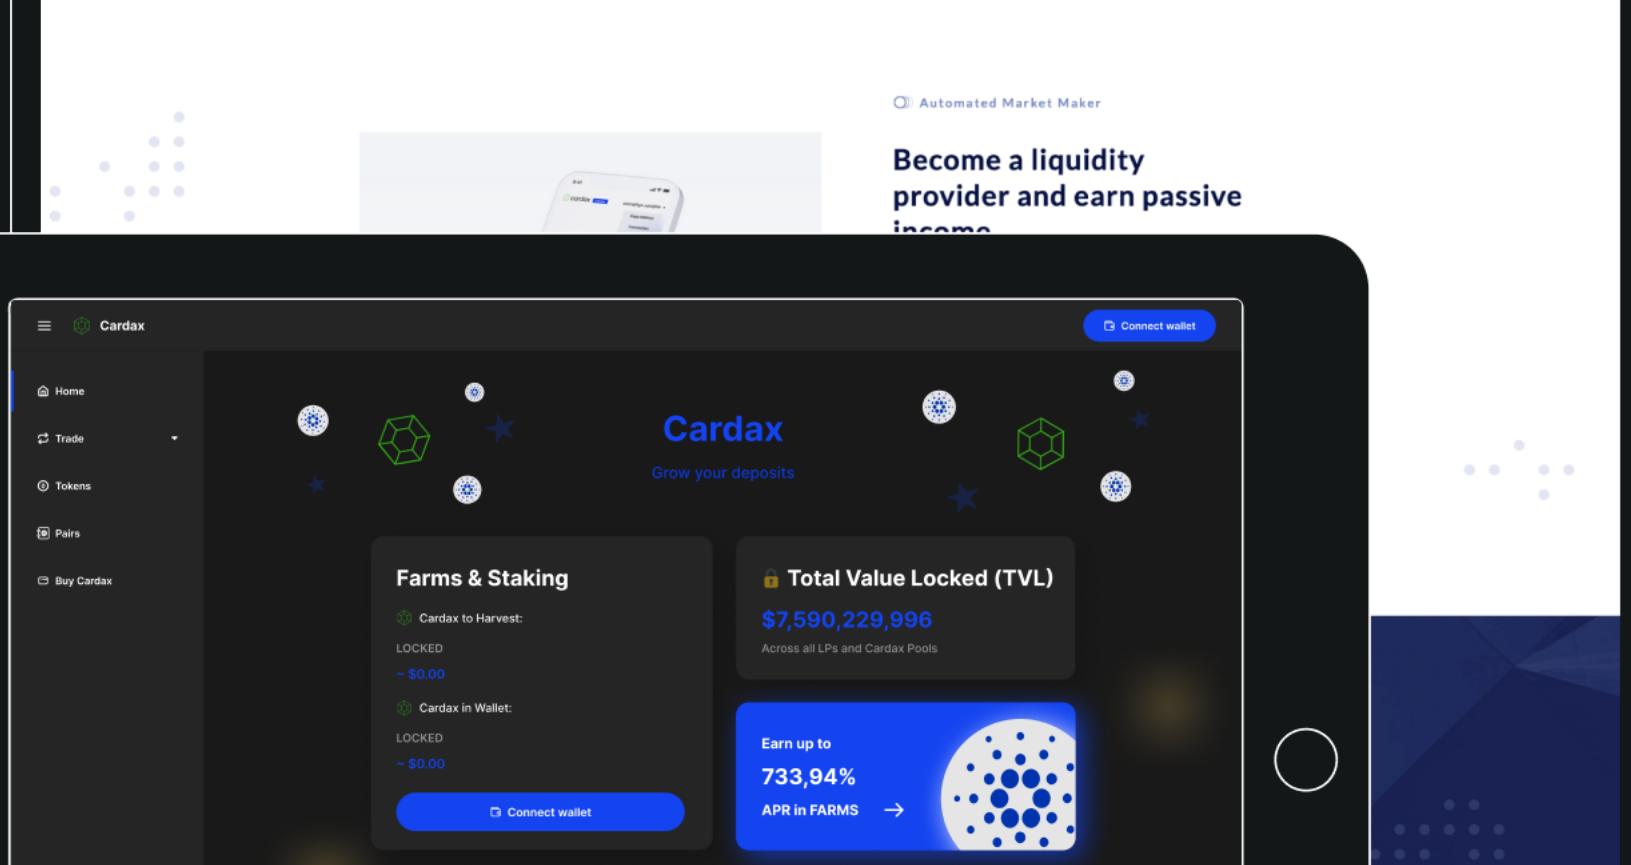

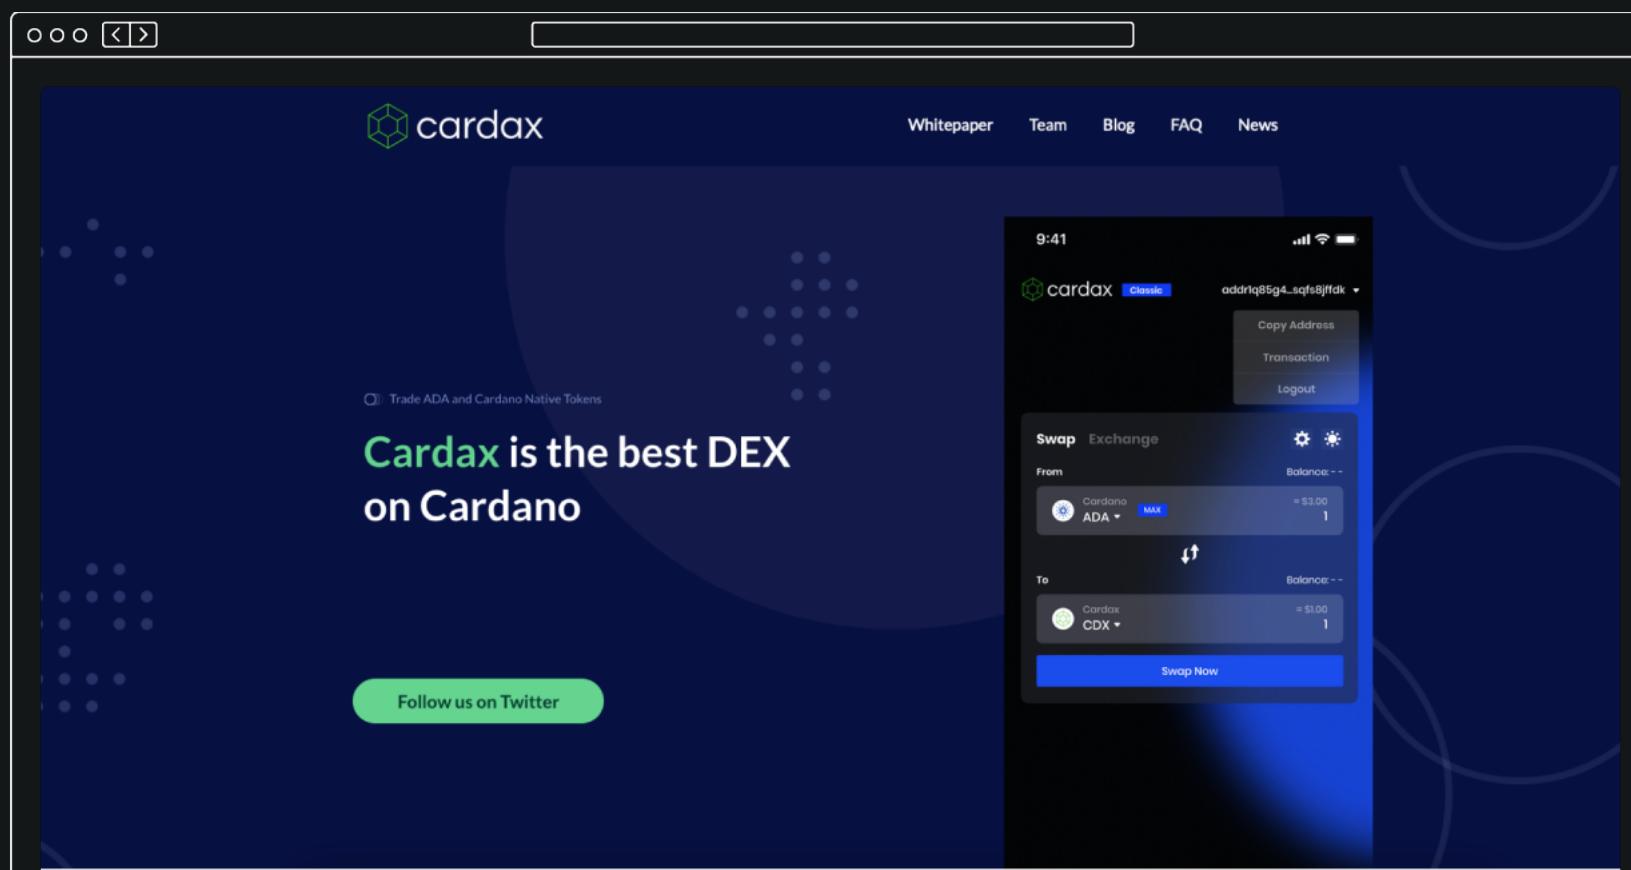

## Token Swap

Allow users to trade any Cardano native token.

## Blockchain

Decentralized cryptocurrency exchange platform developed on Cardano.

MEREHEAD.COM

# Testamex

## Centralized Cryptocurrency exchange platform

### Security

Two levels of authentication, Google Authenticator, email, double protection against DDoS attacks, and monitoring by the security service.

### Simple yet efficient

The core allows users to make up to 1 million transactions per hour.

### Liquidity

Support for multilingual localization and for tokens of innovative projects, also the ability to add your currency to our exchange.

MEREHEAD.COM

The screenshot shows the Testamex homepage with a dark theme. At the top, there's a navigation bar with the logo 'TESTAMEX', language selection ('EN'), login, sign-up, and other account-related icons. Below the header, the word 'Testamex' is prominently displayed in a large, bold font. A sub-header below it reads: 'Testamex is a semi-decentralized cryptocurrency exchange platform. Security is our top priority and we aim to provide safe and reliable environment to trade cryptocurrencies.' A green 'Join us' button is located below this text. The main content area features the heading 'The most trusted cryptocurrency platform' followed by a sub-sub-headline: 'Here are a few reasons why you should choose Testamex'. Three icons are shown with corresponding text: 'Secure storage' (with a key icon), 'Protected by insurance' (with a shield icon), and 'Protected by insurance' (with a shield icon). Each icon has a small descriptive text below it.

The screenshot shows a smartphone displaying the Testamex mobile application. The screen displays a trading interface for the ETH/BTC pair. At the top, it shows the current price (10,257.81), 24h change (9.8%), and various market statistics. The main view features a candlestick chart for the ETH/ETH/BTC 120m timeframe. To the right of the chart is a detailed order book for the ETH market, showing numerous buy and sell orders at different price levels. Below the chart and order book are sections for 'Positions', 'Open Orders', 'Order History', and 'Trade History'. At the bottom, there are sections for 'Trades' and 'Assets', along with buttons for 'Deposit' and 'Withdraw'. The overall interface is clean and modern, designed for mobile devices.

# Blocknance

## Centralized Cryptocurrency exchange platform

### Security

Two levels of authentication, Google Authenticator, email, double protection against DDoS attacks, and monitoring by the security service.

### Simple yet efficient

The core allows users to make up to 1 million transactions per hour.

### Liquidity

Support for multilingual localization and for tokens of innovative projects, also the ability to add your currency to our exchange.

MEREHEAD.COM

The screenshot shows the Blocknance homepage with a dark header featuring the logo and navigation links for Exchange, Market, Investment, About us, FAQs, Contact Us, a language switcher (EN), Login, and Sign up. Below the header, there's a section titled "BLOCKNANCE" with a sub-section "BLOCKNANCE". It states: "BlockNance is a semi-decentralized cryptocurrency exchange platform. Security is our top priority and we aim to provide safe and reliable environment to trade cryptocurrencies." A yellow "Join us" button is present. Below this, there are five cards for major cryptocurrencies: BNB, BTC, ETH, LTC, and BCH, each showing its current price (\$8228.29 for BNB, \$8228.29 for BTC, \$255.93 for ETH, \$0.40 for LTC, \$0.40 for BCH), 24-hour change (1.34% for all), and a "Buy now" button.

#### The most trusted cryptocurrency platform

Here are a few reasons why you should choose BlockNance

Secure storage

Protected by insurance

Protected by insurance

We store the vast majority of the digital assets in secure offline storage.

Cryptocurrency stored on our servers is covered by our insurance policy.

Cryptocurrency stored on our servers is covered by our insurance policy.

The screenshot shows the Blocknance trading interface with a dark header featuring the logo and navigation links for Buy Crypto, Trade, Binary Options, Analytics, Wallets, Orders, Chris Jons, EN, and a search bar. The main area displays a candlestick chart for BTC/USD with various technical indicators like MA and RSI. To the right of the chart is an "Order book" table showing buy and sell orders for BTC/USD, and a "Recent Trades BTC/USD" table showing recent trade details. At the bottom, there are sections for "Open Order", "Open History", "Trade History", and "Funds", along with detailed wallet and order information for BTC and ETH.

## Toby Cronshaw

Creative Director @  
Duke Boxer Ltd

**Merehead** has been an invaluable partner for us in helping us to develop and deliver our visions through custom-built web applications to our clients. Their knowledge and development skills means we can **rely on them** to produce a high-quality product every time, which allows Duke Boxer to focus on other aspects of the build. Their expertise and innovative suggestions make application development a much smoother process for us and we highly recommend them.

## Victor

Co-founder  
TorMarket

We really like the attitude and interaction with **Merehead**, as they treat the project and us not as a customer, but as their own business. The management of the company and the specialists with whom we cooperate always **suggest new solutions** and help to improve. We have been cooperating with the company for **1.5 years** and are satisfied with the result.
